

Wattensaw Bayou Water Trail

Water Trail Length

7.8 miles; North Road to Robinwood Road - 3.5 miles; Robinwood Road to Fire Tower Road - 4.3 miles

Float Time Expect to travel 1-2 miles per hour, depending on water level and rate of paddling.

Warning A train trestle 0.3 miles upstream from the Robinwood Road Access can create a logjam. Approach with caution and portage if necessary.

River Conditions

Wattensaw Bayou usually is a flat-water float. However, heavy rain and high water can create dangerous conditions. Watch for snags and logjams.

At normal water levels, a shuttle vehicle is not needed for this float. Put in at any of the access points and paddle upstream or downstream. Wattensaw Bayou flows east toward the White River.

OUR PARTNERS

The Arkansas Canoe Club and the Arkansas Game and Fish Commission are partners in providing this water trail and maintaining habitat diversity.
